

Victor – 2013 Graduate

Victor's words of advice to others are, "Always remember you can change."

Victor came to Baltimore from the D.C. area and was at the Westside Shelter in Catonsville when he put in an application for Earl's Place. Earl's Place gave him a stable place to live and get himself together. He changed people, places and things.

When he was fifty years old, Victor graduated from Moveable Feast with a SERV Safe Certification, completed Earl's Place and obtained his own place.

"I learned how to live on life's terms, how to be patient, cope with problems, and that I can have fun without being drunk or high" and he had a chance to meet new people. Today he has his own place, a job, financial stability, and the ability to give back and help the next person.

Victor says with a smile that the best thing to happen since he left Earl's Place is that he is "free"! He went on to say that he is grateful that we are always here to help him if he needs us and says, "Thank you for believing in me."
